

# 2010 PPANE Folio Competition

- The purpose of this competition is to encourage photographers to put forth their best efforts on all types of portrait sittings and to offer their customers a better variety of poses and expressions.
- This type of competition should also encourage interest in regular salon competition. This is an inexpensive way of becoming involved and at the same time receive a critique on individual poses of the folio.
- This competition is designed to challenge an image maker's ability to capture a subject with more than a single image, and creatively present it.
